Green card holder

A highly motivated software developer with a huge passion for pushing my personal and professional limits. My previous experience is in the finance field where I acquired strong problem solving skills, high attention to details and the ability to take responsibility and achieve results. I have a Master's degree in Computer Systems and Networks and a huge desire to build up my career as a back-end developer. I recently completed a software development boot camp where I expanded my software development skills further. Now, I am excited to join a team where I can become a beneficial member and contribute my skills.
